Surgery: Understanding Your Billing

In preparation for your surgery, we want to provide you with a break-down of the charges you may receive. You will receive a separate bill from your surgeon, anesthesiologist, and Lake Ridge Ambulatory Surgery Center.

Lake Ridge Surgery Center's Bill

Your co-pay/deductible and estimated co-insurance will be collected on the day of surgery. Please note that this is only an estimate based on the proposed procedures provided to us by your surgeon's office. If we have underestimated your portion, you will receive a bill from Lake Ridge Ambulatory Surgery Center for the additional amount. If we have overestimated your portion, your account will be credited and a refund check will be issued, or your credit card will be refunded.

Your Surgeon's Bill

Your surgeon's office will be your insurance company for performing your surgery. Please contact your doctor's office directly with any question you may have about that bill or any amounts you may owe.

Anesthesiologist's Bill

You will receive a separate bill for the services provided by the anesthesiologist. Questions regarding this bill should be addressed directly to the anesthesiologist by calling the number on the bill that you may receive.

Other Bills

You may receive statements for other services that are billed separately. These bills will be sent to you by the company provided those services. These additional bills may include: Laboratory/Pathology and durable medical equipment. Durable medical equipment may include braces or crutches provided to you by the facility and ordered by your surgeon.

Please do not hesitate to contact Lake Ridge Ambulatory Surgery Center Business Office if you have questions regarding your insurance billing. We are happy to assist you and understand that the insurance billing process can be overwhelming.

We are pleased you have chosen Lake Ridge Ambulatory Surgery Center.
